Work Experience

QuoteMedia Limited   Aug. 2022 - present
Senior Frontend Developer   Vancouver, BC (remote)

- Developed multiple websites using **Vue 3**, **Nuxt 3**, and **Tailwind** to ensure dynamic and responsive user interfaces deployed with **Cloudflare Pages**
- Implemented user authentication through proprietary tools called **"QMods"** for personalized experiences
- Collaborated with design teams using **Figma** and **Adobe XD** to translate mockups into fully functional web applications, maintaining design integrity and alignment with project requirements
- Crafted and maintained a customized **UI library**, promoting consistency and efficiency across projects
- Enhanced previous websites to modern standards, improving accessibility and increased traffic by **~200%**

Leon's Furniture Limited   Jun. 2021 - Jul. 2022
Software Developer   Toronto, ON

- Developed and deployed multiple **Shopify** websites using **JavaScript, Bootstrap, jQuery** and **Liquid** templating
- Utilized **REST API** calls to display data from in-house endpoints and **Google Places API**
- Aided in creation of new store POS application developed in **Vue 2** and **Vue Bootstrap**

Manulife Financial   Sep. 2019 - Apr. 2020
SharePoint Platform Analyst (Co-op)   Toronto, ON

- Created **PowerShell** scripts to decrease site creation processes by **~500%**
- Generated **Visual Basic** Excel macro scripts to streamline repetitive procedures for various employees
- Troubleshot numerous issues by analyzing discrepancies on admin and standard **O365** accounts

Projects

Rise Up League   Sep. 2023 - present
 https://riseupleague.com

- Spearheaded the development of **riseupleague.com**, a dynamic full-stack web platform for the Rise Up League utilizing **TypeScript**, **React**, **Next.js 14**, **MongoDB**, and **Mongoose**
- Employed the **Next.js App Router** for efficient **server-side rendering** using **React Server Components**, enhancing user experience and website performance
- Integrated user authentication using **NextAuth** for personalized player stats, games, and jersey customization

Freedom in Christ Church   Feb. 2022 - present
 https://fcccanada.ca

- Built and launched church website with **TypeScript**, **Svelte 4**, **SvelteKit**, and the **Skeleton UI** component library
- Integrated **Sanity.io** to enable efficient content management and updates for church administrators
- Collaborated with church leadership to implement dynamic features and optimize performance, enhancing user engagement and accessibility
